

# Mohammad Mahdi Estesnaei (Estesnaei)

Department of Computer Engineering and Information Technology, Imam Reza International University, Mashhad, Iran  
Email: [estesnaei@imamreza.ac.ir](mailto:estesnaei@imamreza.ac.ir), [estesnaei@gmail.com](mailto:estesnaei@gmail.com)

## RESEARCH INTERESTS

- Software Engineering
- Software Testing
- Fault Localization

## EDUCATIONS

- MSc in Computer Engineering – Software Engineering at Ferdowsi university of Mashhad, Mashhad, Iran 1999 - 2002  
Thesis: fingerprint identification
- BSc in Computer Engineering – Software Engineering at Ferdowsi university of Mashhad, Mashhad, Iran 1994-1998  
Thesis: license plate recognition

## Journal publications

## RESEARCH EXPERIENCES

1. Mohammad Mahdi Estesnaei, Saeed Araban. and Ahad Harati. "A similarity-based approach to identify and manipulate coincidental correct test cases for fault localization." Journal of Information Science and Engineering (2023).

## TEACHING EXPERIENCES

- **Principles of programming**, BSc Level, Imam Reza International University
- **File Structure**, BSc Level, Imam Reza International University
- **Data Structure**, BSc Level, Imam Reza International University
- **Operating Systems**, BSc Level, Imam Reza International University
- **Algorithm Design**, BSc Level, Imam Reza International University
- **programming languages design and implementation** BSc Level, Imam Reza International University
